## Scenario 1:

You are working as a BI Analyst for Green Eco, a store that manufactures cycles and its accessories. Your manager has asked you to fill up the following questionnaire.

To fill up the questionnaire with correct answers you will need to create a few charts and a Dashboard. The charts that are to be created are as follows:

- Create a Horizontal Chart displaying Profit by Category and Sub-Category.
- Create a Filled Map showing Profit by each Country.
- Show Profit and Order Quantity in the same visualization.
- Display Correlation between Profit, Order Quantity and Customer Level and add a Linear Trend Line. (Use the First Name)
- Finally, create a Dashboard with all these charts and apply Action: Filter on all the charts.

Answer the questions and reset the Dashboard after every question.

(Refer to the dataset from the file: Green Eco Data Set.csv)

Note: While solving scenario-based MCQ Questions from 7-10. You can exit the Quiz section to solve the questions in Tableau. The ongoing quiz will be paused till you resume it online.
