Adding to dimensions on the color pane without changing the meaning of the view.
Refer the dataset: Park Visiting trend.xlsx

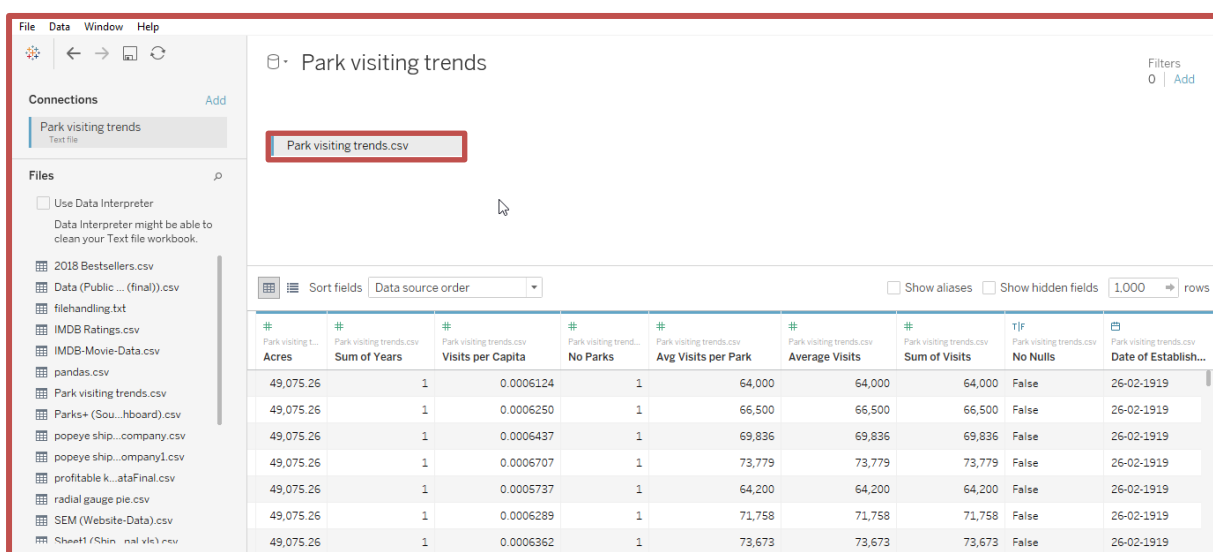

Demo V Solution

We shall take up Park visiting trend data set in order visualize this.

Step 1: Click on “Text file” → Select “Park visiting trend” → Open

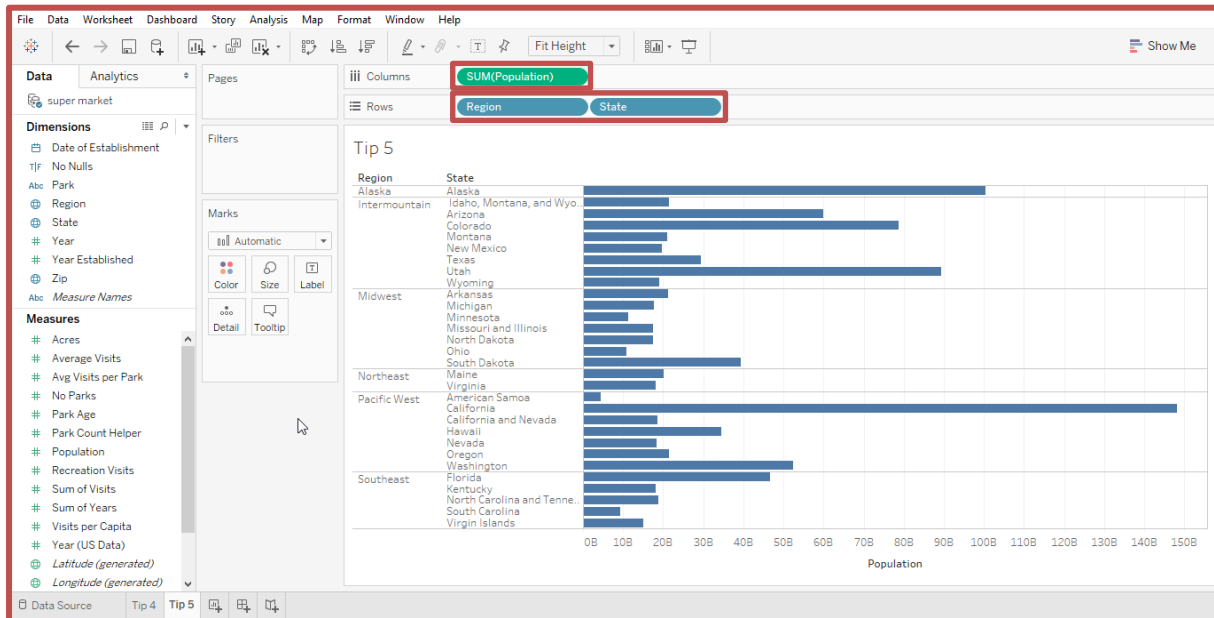

Step 2: Drag and drop the sheets that is “Park visiting trends” sheet on flow pane. Click on sheet and rename it.

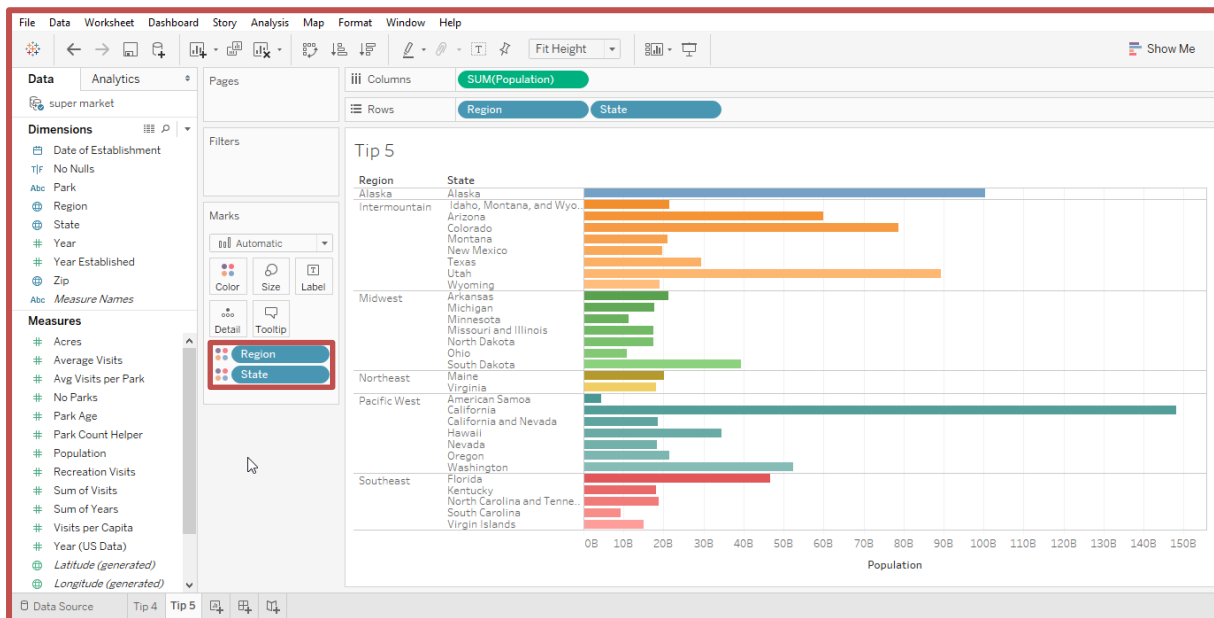

Step 3: Drag and drop the required fields from dimensions and measures to column and row shelf.

- Population to column.
- Region to rows.
- State to rows.

Step 4: Ctrl+click on region and state dimensions and drag them to color shelf.

Now, we have the required visualization.
