Demo V

Using “African Mobile Data.xlsx dataset”, visualize the profit of each country with their sales trend.

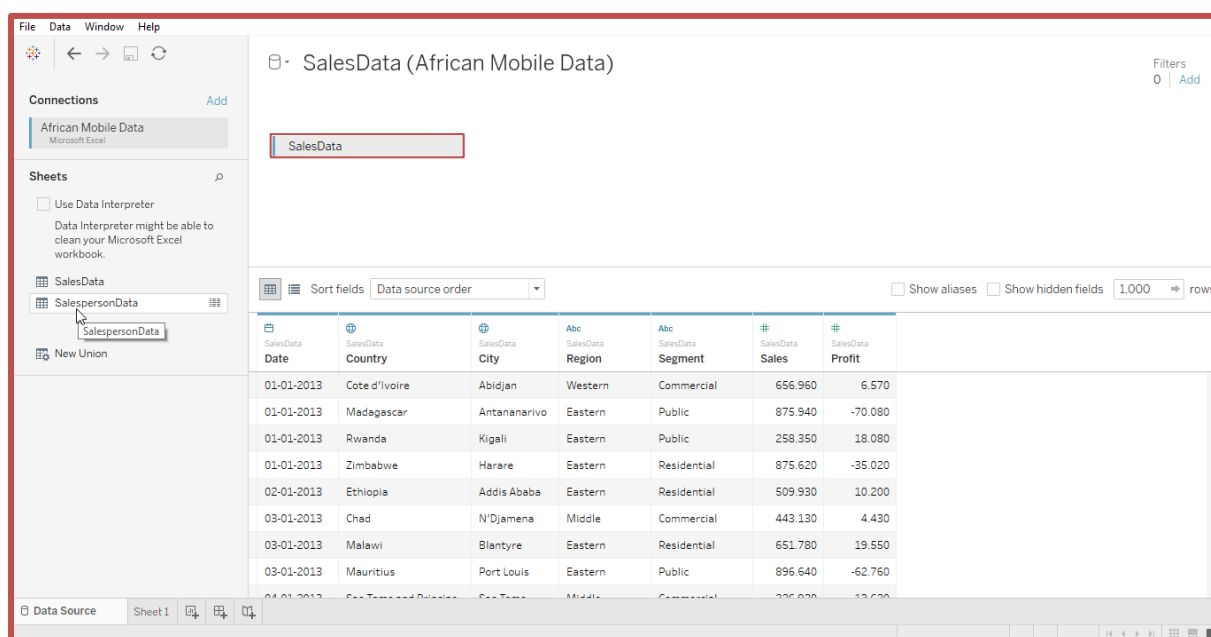

Demo V Solution

Here, we can make use of tooltip to solve this query. We can insert a sheet into another with the help of tooltip.

Step 1: Click on “Excel file” → Select “African Mobile Data” → Open

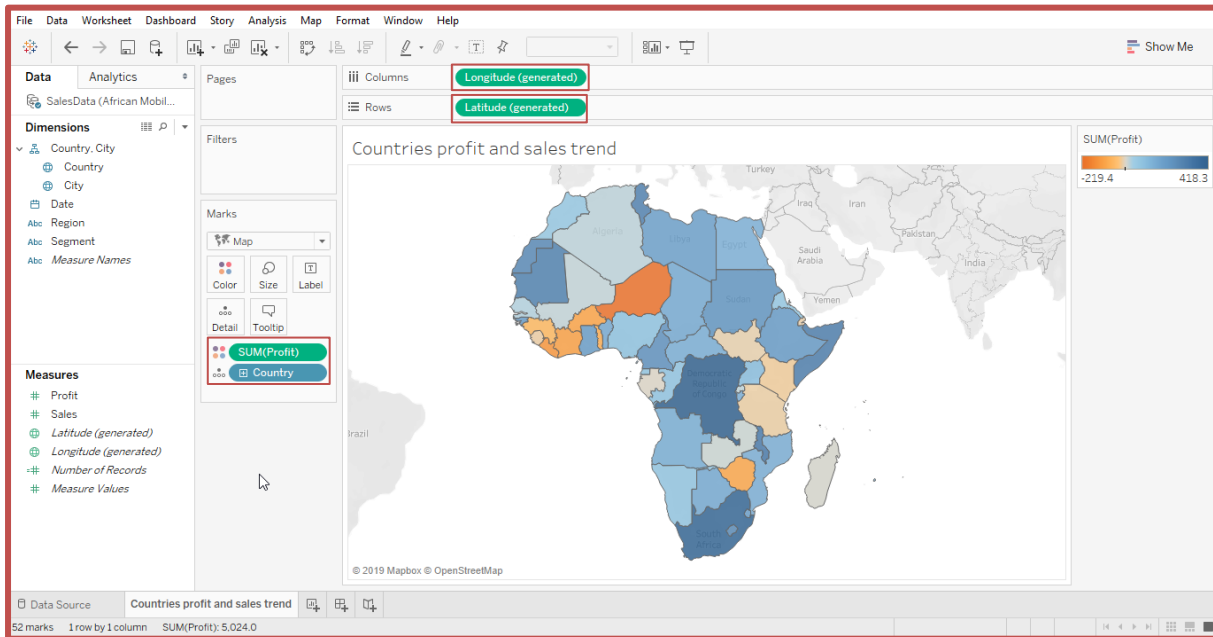

Step 2: Drag and drop the sheets that is “African mobile data” sheet on flow pane, add sales data and then click on sheet.

Step 3: Go to sheet and rename the sheet to “countries profit and their sales trend”

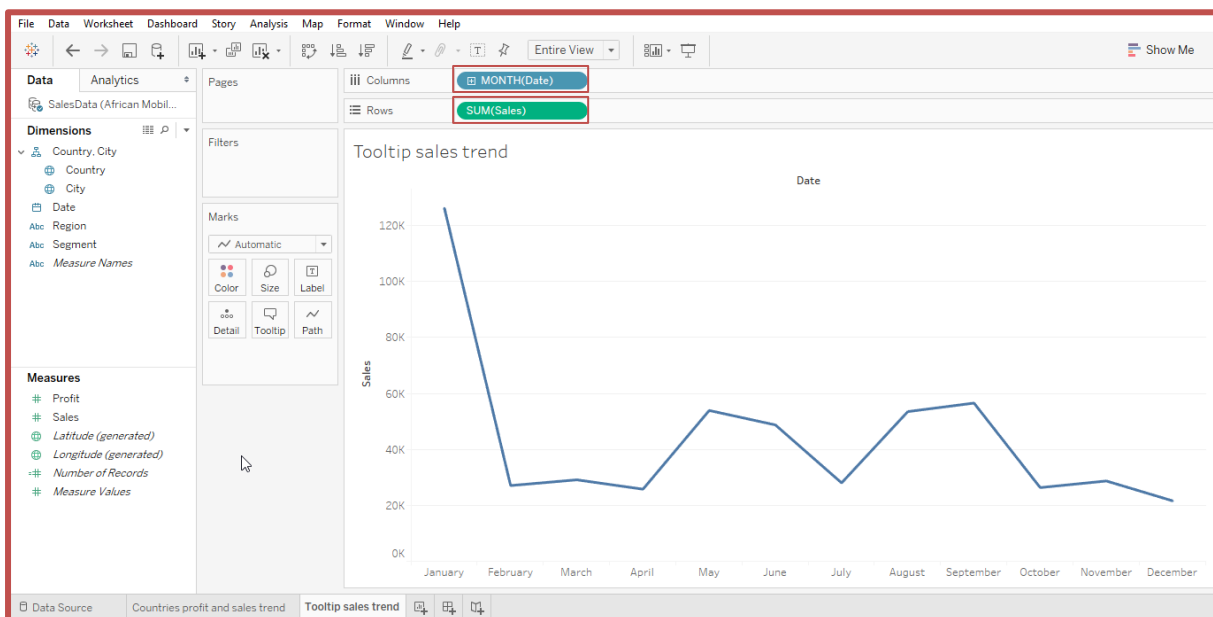

Step 4: Drag and drop the required fields from dimensions and measures to column and row shelf.

1. Country to detail shelf
2. Profit to color shelf

Step 5: Go to new sheet and drag and drop the following fields from dimensions and measures to Column and Row shelf.

1. Date (month) to columns.
2. Sales to rows.

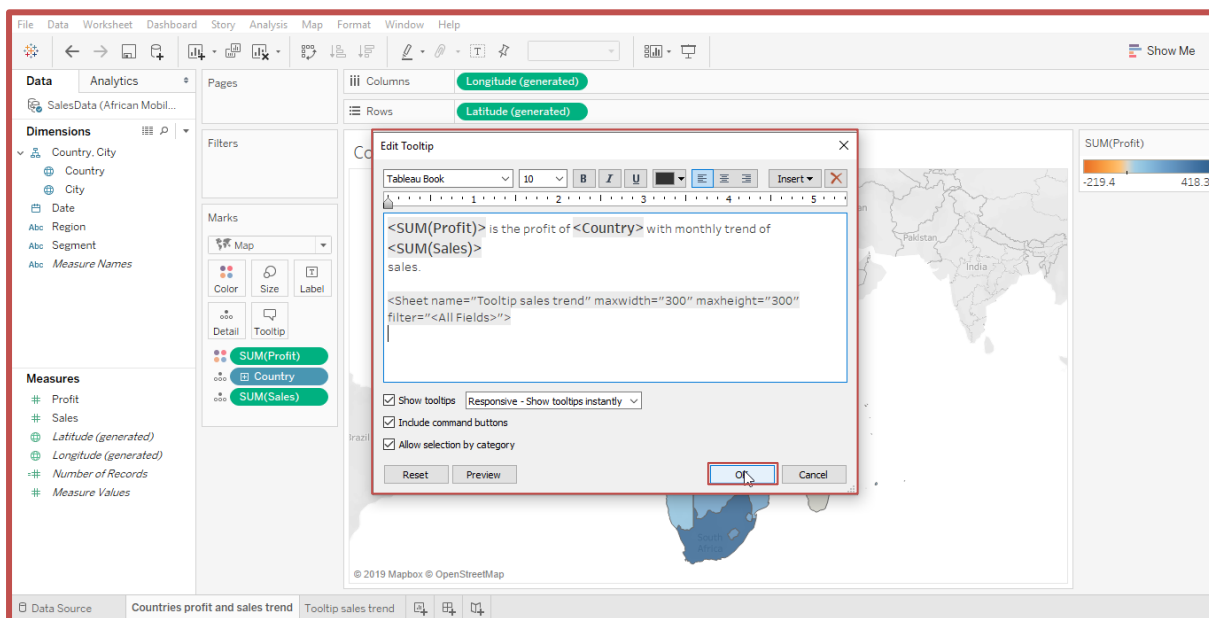

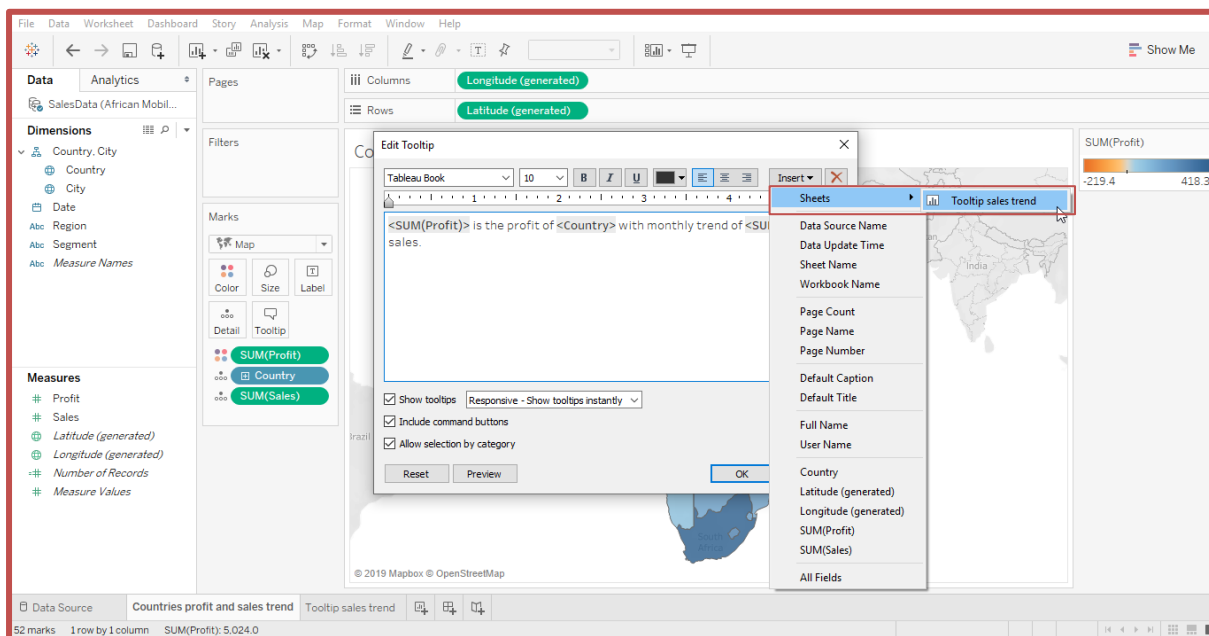

Step 6: Now, to insert “tooltip sales trend” to “countries profit and sales trend”

Step 7: Go to tooltip of “countries profit and sales trend” and edit tooltip

Step 8: Click on “Insert” → Select “tooltip sales trend” → click

There you go!! You have inserted the sheet.

Now, hover over different countries to visualize its sales trend.

Module 5– Advance visual Analytics
