## Demo VI

Using “Build a house.xlsx” dataset, build a Gantt chart to see the status of house.

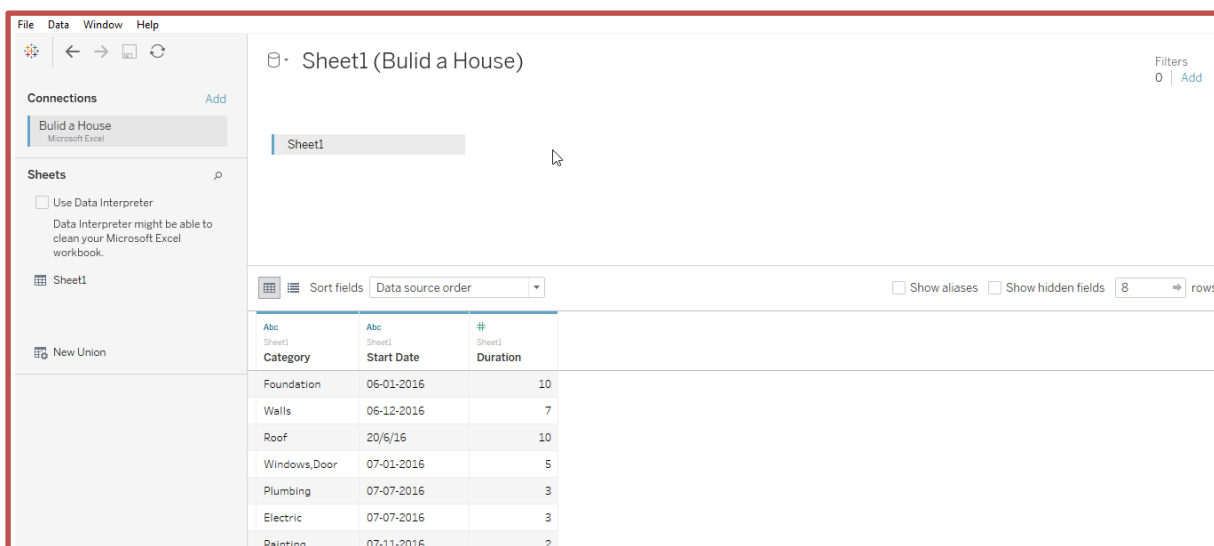

## Demo VI Solution

Gantt chart is a type of Bar chart which shows a project plan over time, here the project refers to building a house.

**Step 1:** Click on “Excel file” → Select “Build a house” → Open

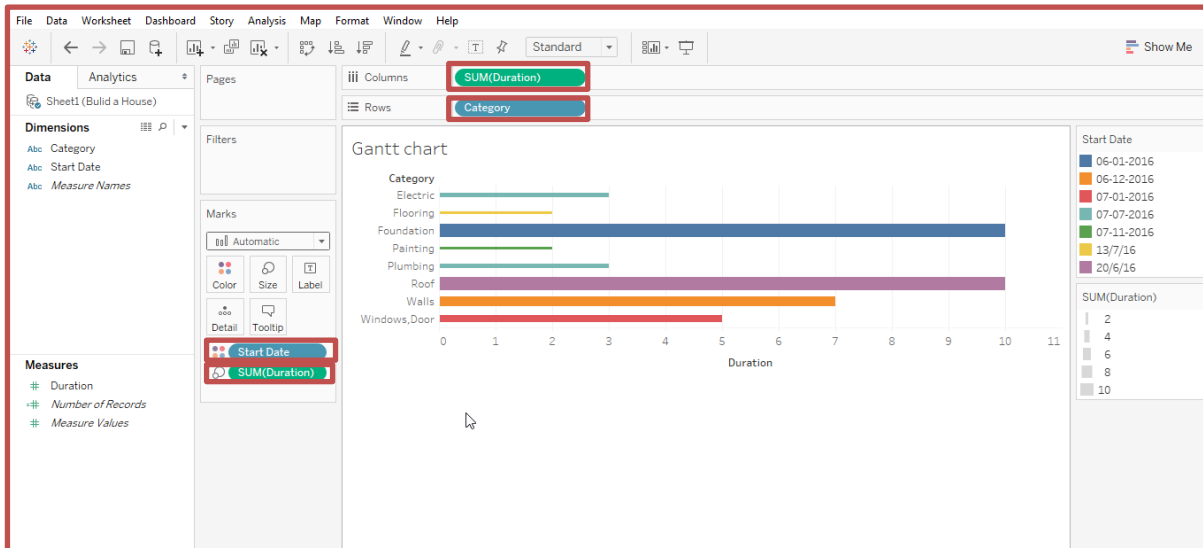

**Step 2:** Drag and drop the sheets that is “Build a house” sheet on flow pane, and click on sheet.

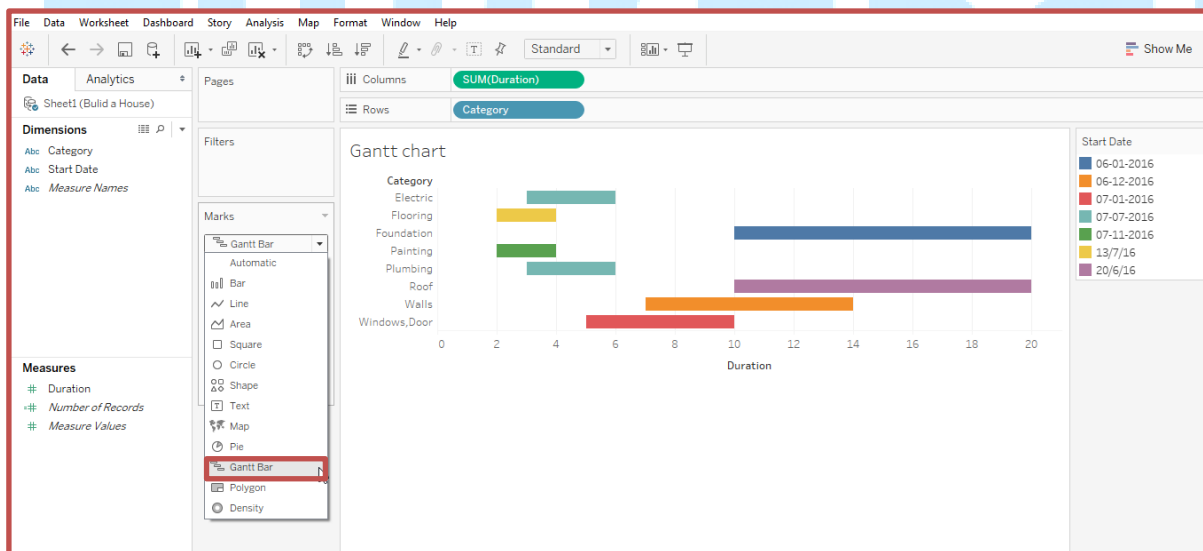

Go to sheet and rename the sheet to “Gantt chart”.

**Step 3:** Drag and drop the required fields from dimensions and measures to column and row shelf.

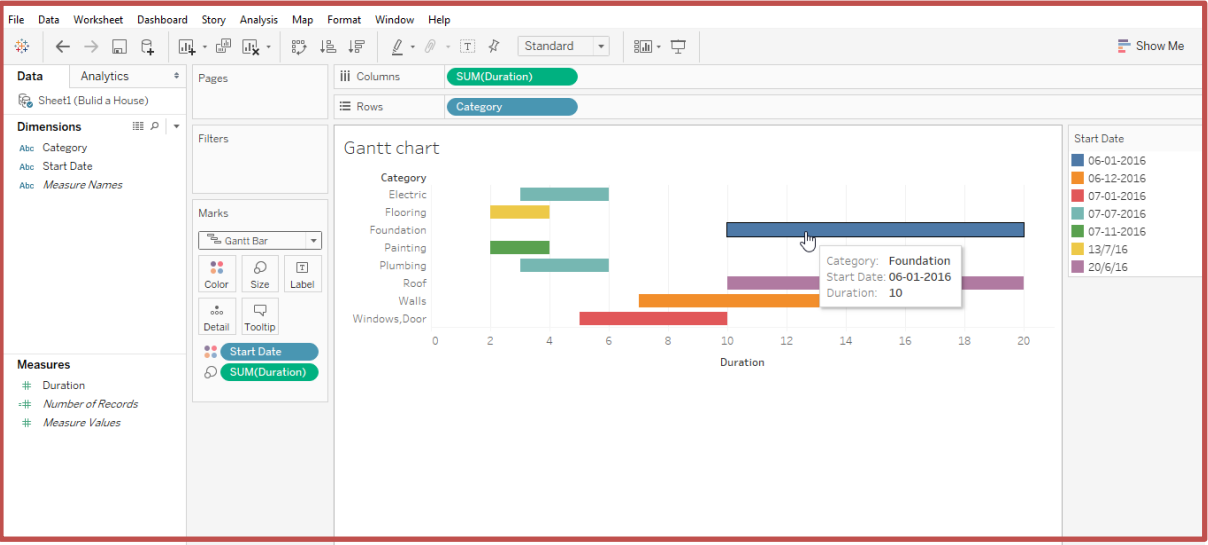

- Duration to columns
- Category to rows
- Start date to color
- Duration to size

**Step 4:** Change the mark type to Gantt in the marks shelf.

We have the required visualization which represents the start date of work and duration by which it will be completed.
